Very good image hosting site!!!

<http://oreys.com/>

Unlimited file size, expire in 15 days from last download

Online File sharing services in English

- [MyBloop.com](#) - The world can share files for free, without storage limits.
- [iStorage](#) - **Paid service**. 30 days trial. Iomega iStorage. File storage, access and sharing by email.
- [Box.net](#) - **Paid** service to store 1 GB of files for 2.99 USD per month. 5GB of storage for \$8.99.RSS filefeed for file list updates.
- [Streamload](#) - **10 gb storage**. Send, receive, store and access. Sharing of files **up to 2 GB in size**. Paid to download up to 10 GB per month. (via Mike Corrales of Streamload)
- [MediaMax Streamload](#) - That will include even more features and higher limits for free users. Meanwhile, paying users will get **250 GB of online storage** and the ability to share up to **25 GB** for \$9.95 a month. MediaMax is a full Online Media Center with 5 services wrapped into one central application. It allow easy video sharing, photo sharing, remote music, movie, and recorded television access. There are no file size limits in Streamload MediaMax and the free account allows unlimited sharing with other MediaMax users or sharing up to **500 MB per month via email links** (with non-users). (via Mike Corrales of Streamload)
- [FilesAnywhere](#) - Using GroupShare you can **share any of your remote folders with other users**, and assign different access rights to each user. Users that you add to a shared folder will see your shared folder under their main "GroupShare" folder when they Login. http://www.filesanywhere.com/Help/On...File_Share.htm
- [Grouper](#) - Grouper is a private P2P app that makes it easy and safe to share large files in a group context. (via Josh Felser)
- [openomy](#) - Heavily in beta but worth a look. Only **10 MB of storage** at the moment. [More info about openomy](#).
- [Gmail](#) not really a file storage thing but it is possible with gmail 😊
- [35mb.com](#) - *registration required*
- [adorablebunnies.com](#) - *everybody can see uploaded files*
- [Come2Store](#) - *choose a server on the right / registration is required*
- [Content-Type](#)- upload limit 100 mb, unlimited bandwidth, file stays forever
- [CyberUpload](#) - Upload limit is 500 mb, unlimited bandwidth, file will be deleted if not downloaded after 7 days
- [Dropload](#) - *registration is required*
- [filefactory](#)
- [FileFront](#) - *registration is required; ; your account will be frozen if u upload copyrighted files*
- [I'll Host It](#)

- [MegaShares](#) - Upload limit is 1.5 gb, unlimited bandwidth, file will be deleted if not downloaded after 25 days
- [MegaUpload](#)
- [mooload](#)
- [Mytempdir.com](#)
- [Putfile](#) - : *No registration is required, but files can only be viewed by streaming*
- [Rapidshare](#) - There's waiting time. Download speed is fast, but the amount of total download size is limited then you will have to wait for approx. 1 hr
- [refrozen](#)
- [Send2Store](#)
- [SendOver](#) - Upload limit is 2 gb, unlimited bandwidth, file will be deleted if it's not downloaded after 7 days.
- [ShareBigFile](#)
- [Spread-it.com](#)
- [The File Hut](#) - : *250 mb free, registration required*
- [Uploading.com](#) - : *300 mb limit, fast service, but there's waiting time*
- [UltraShare](#) - : *No bandwidth limit, file will be deleted after 30 days of inactivity. Fast service, and upload limit is 30 mb*
- [UploadTemple.com](#)
- [Xdrive](#) - *only 15 days trial / use www.mailinator.com for registration?*
- [yahoo briefcase](#) - *registration is required*
- [YOURfile](#)
- [YouSendit](#) - *file will be deleted after 7 days or 25 downloads, whichever occurs first.*
- [zippyvideos](#) - *only movies and flash files...*
- [Zupload](#)

Enjoy...👍 TECHSATISH
